Parking Plan

Montez thanked the group for agreeing to be a part of this special meeting. Unfortunately, we did not have a quorum at the previous meeting. This meeting today provides the committee an opportunity to ask any questions and officially vote to recommend this parking plan to City Council. Morin stated that he feels the plan reflects the general tone of the conversation and attitudes of the Parking Advisory Committee. Does not object to anything within that document feels like it represents the ideas that we've talked about and also reflects what would be beneficial for the Parking Advisory Committee area.

Ginter seconded Ryan. The plan follows along with the discussion that we had in December and captures the thoughts that we had collectively put together as a group. It looks good.

Ginter motioned and **Cromer** seconded to approve the working draft of the downtown parking plan, as most recently sent out to the Parking Advisory Committee.

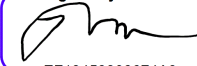

Motion approved unanimously.

Public Testimony

Kimberly Elbon stated that unfortunately there is limited parking around City Hall for the public and feels that there should be more public parking available.
